

To whom it may concern,

I think taht NJ has the right idea r/t the laws concerning the do not call list. Telemarketing calls are annoying. I work 2nd and 3rd shift-My family and friends know this..My point being that they don not call. Telemarketers call early in the morning or late at night and awake my family-They have no regard for anyone, and they do not take no for an answer. My husband asked a telemarketer to hold and left the phone off the hook for over an hour before they got the hint that he wasn't going to answer. Please leave New Jersey DO NOT CALL law alone!
